Spend Data

I am writing in response to your request for information dated 21 September 2021 in which you requested information regarding spend data. For ease of reference, I have reproduced your question below in bold and set out our corresponding response:

I am looking to find out where Wales Audit Office publish their Transparency Data for spend over £500.

We do not publish this information. Such publication is required of English local authorities under the Local Government Transparency Code and the Local Government (Transparency Requirements) (England) Regulations 2015; there is no Welsh equivalent for this type of legislation.

If you have any queries, please do not hesitate to contact me.

Yours sincerely,

Information Officer
